

# HOW TO DOCUMENT ICE AT YOUR DOOR

**FILMING AND KNOWING YOUR RIGHTS MIGHT NOT STOP THE ENFORCEMENT IN THE MOMENT BUT CAN HELP YOU FIGHT YOUR CASE DOWN THE LINE.**

**Remember you have the right to film law enforcement in or outside your home, regardless of your immigration status, as long as you don't interfere.**

**Call/message a trusted neighbor to film agents outside your home.**

**Create a plan with neighbors before an incident occurs.**

**Apps like United We Dream's Notifica allow you to quickly deploy a message to people in your network if ICE is at your door.**

**Agents may trick or manipulate you to gain entry without a warrant.**

**Record or take notes of what the agents say.**

**State or film a piece of paper noting the time/date/location.**

**If you share publicly or want to livestream, consider the safety risks that come with exposing sensitive information that can reveal someone's identity or location.**

**If you can't film, recording audio can still be valuable!**

**A Film agents through your peephole if you don't have windows.**

**B Focus your camera on: weapons, uniforms, badge numbers, and license plates.**

**C If ICE enters your home, remain calm. Film property damage after they leave.**

**D Film or take photos of any documents that agents have- ask them to slide it under a door. Even BORTAC agents need a warrant or your consent to access your home.**

**Share footage or information about a raid with MigraWatch hotline or a local trusted advocacy organization:**
